

I understand that the above proceeding could lessen Indiana's Telephone Privacy law protections. I ask that you not implement this proposal. I currently enjoy not getting unsolicited telephone calls while at home. If there is a service or product I need or want

I am quite capable of researching the companies in which to acquire them from. I do not need to be hounded by phone. Again I strongly urge you not to implement proceeding 02-278.

Thank you.

Gail Vedder

PS is there anything we can do about junk email? Especially the unsolicited porn? matter.
